ARRI ARTEMIS 2

ARTEMIS 2 combines a carbon centre post with Gen. 2 top and bottom stages, high-payload architecture, dual-voltage power and professional video distribution. The included Steadicam VOLT Post Kit is configured for use with the ARTEMIS 2 system.

MODULAR • HIGH-PAYLOAD • 12/24 V

ASSIST / 02

STEADICAM VOLT. ASSIST WHEN YOU WANT IT.

The Steadicam VOLT adds horizon assistance while preserving the operator's feel. Its controls sit directly on the gimbal, making adjustment immediate and the transition between manual and assisted operation intuitive.

HORIZON ASSIST · OPERATOR CONTROL

GPI PRO TITAN ARM

A professional iso-elastic arm configured with four black and two blue canisters. The supplied ARM POST set extends the package from conventional work to long ARM POST and spinning ARM POST configurations.

6-32.6 KG LIFT • 60 CM BOOM

BUILT AROUND THE OPERATOR

The ARRI ARTEMIS VEST completes the body-mounted system with professional fit and load transfer. Front and side views document the actual included vest.

— ARRI ARTEMIS VEST • INCLUDED

— FRONT

— SIDE

BEYOND BODY-MOUNTED

The Walter Klassen hard mount extends the package to Mitchell and pipe-based operating positions. Dedicated low-mode and monitor hardware support rapid changes in camera height and viewing position.

HARD MOUNT • LOW MODE • MONITORING

ONE PACKAGE. MULTIPLE MODES.

The system is supplied with the transport cases shown in the photographs, including the SKB iSeries 4217-7 listed in the inventory. Every image documents actual components from the package.

— **READY FOR PROFESSIONAL DEPLOYMENT**

SYSTEM & POWER

Inventory compiled from the seller-supplied equipment list. Final physical verification is recommended before purchase.
